Taking A Reach Upward To Lead To Doctor Todd Grande, I am not at odds with his work in total. But there is new evidence that must be brought into perspective. There is a certain dark casting at the intense efforts to hold a mass ignorance onto the subject that I am particularly affected by. But what is unacceptable [ROADBLOCK TO COMMUNICATING] deception that must be broken. I define the issues that surround my life path as a WICKED PROBLEM for reasons that are unsolvable.

So I am sharing this matter as I have --- it is a matter of pretense -- the ones who have DOCTOR DEGREES can not be challenged from their authority. The authority to claim one thing, when such one thing is not true. In mental health, the pointer to "Violent" or "Threat" is way overused to shut someone up -- and that is the conflict I am in.

My First Appointment With InlandPsych With "CareTeam"

[Binding-DOCTOR-CHINYERE-OBAKHUME.html](#)

I identified her inclination. This was when I was pointing out something that she was not accepting. She placed a barrier in my communication.

The information I was sharing, was a hard copy printout of a National Institutes Of Health Related Research Findings on Gangstalking.

The Filename Relates Doctor, but she is not a Doctor.

She is a Nurse Practitioner.

She shut down and would not continue the normalization of conversation.

She was then sensitive to my efforts to rebalance it, Witnessed by

my mother, she accused me of being threatening. My mother agreed

that I never was in a behavior of threatening. Not first impressions,

she attempted to withhold PREFACE to then establish IGNORANCE.

The session failed from that point forward.

I am expecting the same conditions for a real doctor.

Any attempt to "break the ice" it met with extreme choices of

unprofessionalism on their part. [Documented for 15+ years]

The wicked problem I mention.

YES.

I NEED SUPPORT TO GET MY ACTUAL MENTAL HEALTH IN COMPLIANCE WITH THE LAW!

It is NOT ME that is ASKING TOO MUCH!

IT IS DEFINITELY NOT A FAULT I AM RESPONSIBLE FOR!

I HAVE TRIED EVERY SINGLE POSSIBLE WAY TO OPEN THIS DAMN DOOR OF INCLUSIVE REQUIREMENTS -- IT SEEM THEY

THINK IT IS OPTIONAL - IT IS NOT - THIS INTERFACE IS UNDER A

DEMAND THAT IS INDECLINABLE! YOU CAN NOT DECLINE

YOU CAN NOT REMAIN THERE OPPOSITE OF ME!

YOU CAN NOT REMAIN THERE OPPOSING ME!

YOU CAN NOT REMAIN THERE DISOBEYING THE LAW!

YOU CAN NOT REMAIN THERE INVERTED FROM ME!

YOU CAN NOT REMAIN THERE AS AN ADVERSARY AGAINST ME!

YOU CAN NOT REMAIN THERE IN SECRECY!

YOU CAN NOT REMAIN THERE DISHONESTLY

YOU CAN NOT REMAIN THERE UNCHANGED FROM YOUR DUTY AND YOUR OATH TO "DO NO HARM" WHEN HARM IS BEING SHOWN TO YOU!

YOU CAN NOT REMAIN THERE IN SILENCE!

YOU CAN NOT REMAIN THERE WITHOUT RESPONSE OF RESPONSIBILITY!

YOU CAN NOT REMAIN THERE 150 MONTHS PASSING BY THE CHANGE OF OUR GLOBAL WAYS OF THINKING TO ENABLE RIGHTS FOR PERSONS WITH DISABILITIES AND FOR YOU TO NOT KNOW EXACTLY WHAT YOU ARE TRYING TO GET AWAY WITH. I DO NOT CARE IF YOU CALL ON THE AUTHORITIES WHO MAY BELIEVE YOU OVER ME -- I WILL DIE FIRST BEFORE I ALLOW YOU TO CONT AND INJURING YOUR PATIENTS IN THIS MODEL THAT YOU OBVIOUSLY HAVE SOME KIND OF PROBLEM DOING THE RIGHT, MORALLY RIGHT ACTIONS HERE!

YOU ARE HEADING WITH FOOLISH ALLEGIANCE TO SOME DIRECTIVE TO NOT BE OF THE SOUND MIND PERSPECTIVE!

THIS IS LEADING TO A COURT BATTLE --- WHERE NO ONE WINS !

YOU ARE ABSOLUTELY INSANE!

 The image of a round crystal ball is an emoji used as reference to the future and the ability to foresee it. Crystal Ball emoji is generally used jokingly when someone means to say that they can guess something correctly because they know what will happen. It's like saying "I can see it in my magical crystal ball!"

YES, I CAN SEE THE FUTURE IN ALL OF THIS? CAN YOU?

Use 14c, originally in grammar, from French *indiscutable* or directly from Latin *indiscutibilis* 'unchargable', also in grammar, from *indiscutatur* 'uncharged, constant' from *in-* 'not, opposite of' (see *in-*) + *discutatur*, from *discutere* 'to lower, avoid, deviate, bend from inflex' (see *dis-*), Related: *indiscutably*.

Entries linking to *indiscutable*

in- (1)

word-forming element meaning "not, opposite of, without" (Latin *in-*), or by assimilation of *-d-* with following consonant, a tendency which began in later Latin, from Latin *in-* "not," cognate with Greek *in-*, Old English *in-*, all from PIE root **in-* "not." In Old French and Middle English often, but most of these forms have not survived in Modern English, and the form that *in-* became, by instance, no longer an *in-* as negative. The use of *in-* with oblique Latin elements *in-* with *in-* or realized ones.

decline (4)

in 14c, "to turn aside, deviate" (in sense now archaic), also "to go to a lower level," and, figuratively, "to go to an inferior or impaired condition," from Old French *decliner* "to sink, decline, degenerate, turn aside," from Latin *declinare* "to lower, avoid, deviate, bend from inflex," from *dis-* "opposite" (see *dis-*) + *clinare* "to bend" (from PIE **klein-*, verbal form of root **k-* "to lean"), in grammar, "to inflect as a noun or adjective," from late 14c. The sense has been altered by interpretation of *dis-* as "downward," intensive meaning "to bend or slant down" from c. 1400. Sense of "not to consent, publicly refuse or withhold consent to" is from 1630s. Related: *Declined*, *declining*.

Red Light Dr. Grande or Green Light Dr. Grande on Such Discussion?

Our focus MUST FOCUS on TRUTH and RESOLVING TRUTH in the PARAMOUNT PRIORITY.

That is a matter of trust and of our moral responsibility to the nation of tomorrow. In the performance of this position, the creation of a sense of an establishment entity who seems to control each and every response to resolve the... establishment of trust as a dual exchange option of this position and hence with things as transparent, respect, clarity, or become critical.

We asked "that although who dialogues with you that they are dedicated to the cause of truth and to resolve the... establishment of trust as a dual exchange option of this position and hence with things as transparent, respect, clarity, or become critical."

I am doing absolutely nothing wrong -- nothing illegal -- and if you think this is some kind of threat -- well that maybe because you are not operating in the best of excellence you ought to be. How about applying and adapting to change -- and that you say -- oppose duty -- we are sorry for our misapprehensions.

Ehf?

I am not the one acting badly -- you all are!

Do you see yourself applying your role to which you are blocking here?

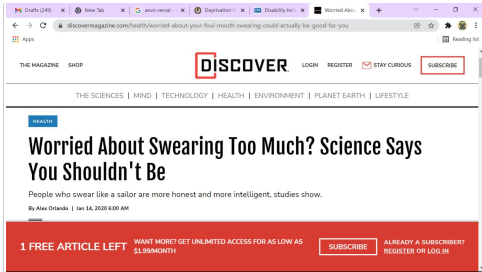

This involves more than simply encouraging people; it requires making sure that adequate policies and practices are in effect in a community or organization.

Inclusion should lead to increased participation in socially expected life roles and activities such as being a student, worker, friend, community member, patient, spouse, partner, or parent.

Socially expected activities may also include engaging in social activities, using public resources such as transportation and libraries, moving about within communities, receiving adequate health care, having relationships, and enjoying other day-to-day activities.

Worried About Swearing Too Much? Science Says You Shouldn't Be

People who swear like a sailor are more honest and more intelligent, studies show.

Letting out a few choice words can help relieve pain, and might even make you a bit of stronger. (Credit: durandakara/Shutterstock)

Well, damn. Maybe you stubbed your toe first thing in the morning. Or some thoughtless commuter forced you to slam the brakes on the drive to work. Perhaps you're just fed up with it all and feel the inkling to your knees and cursing the heavens. If you've ever suppressed the urge to unleash a string of obscenities, maybe three, again. Some research suggests that it might be a better idea to simply let the f-bombs fly. Scientifically speaking, a profanity doesn't seem to be such a bad thing. Studies have shown that swearing relieves stress, dulls the sensation of pain, fosters camaraderie among peers and is linked with traits like verbal fluency, openness and honesty.

IT BECOMES OBVIOUS — YOU ALL CAN NOT BECOME HONEST!

Damn Honest

Beyond swearing's impacts on the body and mind, research has shown that cursing can influence our social dynamics, too. A 2012 study found that swearing can enhance the effectiveness and persuasiveness of an argument. In addition, cursing can also convey an *emotional reaction* to something without resorting to physical violence.

And while many might consider swearing less than savory, a recent study revealed that people who curse often actually *feel less* and have a higher degree of integrity.

After the scientists surveyed how often participants use profanity, they conducted a series of tests to determine how truthful an individual was. The research team found a positive link between profanity and honesty. Cursing was associated with less deception on an interpersonal level, and higher levels of integrity overall.
